| <input type="checkbox"/> Other (such as Local Government) | <input checked="" type="checkbox"/> Warning Letter |
| <input type="checkbox"/> Phone or Letter Response | |

Comments:

608 warning letter

Consultant **Non-Relocatable** followed up with receipt of warning letter. He stated that General Iron accepts items full of refrigerant and has about 6 recovery machines that remove the refrigerant at the time of delivery. He stated that recovered refrigerant goes to Hudson Technologies for reclamation. Most of it is pure R-22, so General Iron makes a small amount of money on it, but that they also pay to have mixed refrigerant destroyed.

I gave him the overview of the complaint - that the refrigerant was being vented after it had been recovered - and advised him to do another internal audit of the facility to ensure that employees and managers were following required practices.
- Natalie Topinka 4/19/16
